

Chemistry **with a Difference**

Industries served:
Lubricants, Paints, Agriculture, Cosmetics, Textiles
and Many More

Introduction

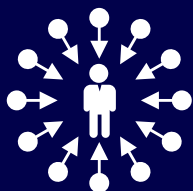

- Kusa Chemicals, family managed business is a trusted partner since 1983. We formulate high-quality specialty chemicals for industrial applications with a focus on the Lubricant Industry. Our expertise ensures superior product performance across diverse industries.

Vision

- To be a leading Globally recognised Additive Supplier with a focus on Quality, Safety and Innovation
- To be Environmentally and Socially conscious
- To create an Employee friendly and safe ecosystem.

Why choose Kusa Products?

- **Customer Focused:** We develop tailor-made specialty chemicals in close collaboration with you.
- **Technology Driven:** We invest in cutting-edge solutions for continuous improvement.
- **Modern Facilities:** Ongoing modernization ensures efficient and reliable production.
- **ISO 9001 Certified:** Committed to the highest quality standards.
- **Environmentally Friendly ISO 14001 and ISO 45001 Certified:** Our zero-discharge facility and use of renewable energy minimize environmental and health impact.

Our Products

Additives for Lubricants

- Pour Point Depressants
- PMA-based Viscosity Index Improvers
- Antioxidants
- Hydraulic Oil Package
- Defoamers
- Antiwear - ZDDP and Amine-Phosphates
- Demulsifiers
- Corrosion Inhibitors
- Polyalkylene Glycols - Water Soluble and Water Insoluble Grades
- Copper Passivator

Additives for Emulsifier Systems

- Emulsifier Packages for Soluble, Semi-Synthetic systems
- Phosphate Esters
- Emulsifier Systems for Cleaners
- Biocides
- Non-Ionic Surfactants - Can be customized to meet HLB requirements
- Imidazolines
- Emulsifier Systems for Knitting Oil, Wax Emulsions, Silicon Emulsions
- Agricultural Spray Emulsifier

Our Products

Coatings

- Dispersing Agents
- Defoamers
- Wetting Agents
- Non-Ionic Surfactant Systems
- Specialty Acrylate/Methacrylate Monomers

Surfactants

- Alkyl Phenol Ethoxylates
- Fatty Alcohol Ethoxylates
- Castor Oil Ethoxylates
- Styrenated Phenol Ethoxylates
- Low Foaming Surfactants
- Fatty Acid Ethoxylates

Monomers

- Lauryl Methacrylate
- Stearyl Methacrylate
- TMPTMA
- Behenyl Methacrylate
- PEG200 DMA
- TMPTA
